About Us

Celebrating 15 years of service excellence in 2021.

Why Bother Cleaning provides commercial cleaners, contract cleaning, anti-viral disinfection, COVID-19 cleaning and deep cleaning services to businesses across the Brighton and Hove area.

Whatever the size of your office premises or the nature of your business, we understand that when it comes to staff motivation and productivity, a clean, pleasant office environment is a must.

Why Bother Cleaning was founded in 2006 with an exclusive aim: to offer distinctive, first class cleaning services in and around Brighton and Hove. Whether you need weekly or daily cleaning services, your dedicated cleaner or team will be matched specifically to your requirements. We will take the time to listen carefully to your priorities. With a transparent hourly pricing structure, we'll deliver to your high standards and specifications.

Hygiene has never been more important following the pandemic, so look no further if you need a well established cleaning company you can trust to ensure your workplace premises is thoroughly cleaned and disinfected upon each visit.

How We Work

Here at Why Bother Cleaning we focus on you, your business and your cleaning needs. We've developed a series of repeatable, predictable procedures to offer great quality cleaning services in Brighton and Hove. Many of our clients have been with us since the beginning - and we know why.

A great start - We'll agree your key objectives and priorities during a visit to your premises. The available space, business activity and staff numbers will determine the number of hours and the frequency of cleaning required.

We recruit, train and retain - We know how to select and keep the best staff; experienced domestic cleaners keen to recreate their own strict standards in your working environment. For consistency, we allocate a dedicated cleaner or cleaning team to each client.

How are we doing? - Communicate with your cleaner via a dedicated cleaning Book kept in your office. It's a great way to raise concerns, queries or specific priorities. Feel free to say nice things too!

During the pandemic, Why Bother Cleaning has adapted the way in which we work. From upping the frequency of cleaning in most premises, to adapting our methods and materials, we ensure our clients and their staff have not only a clean workplace, but a safe one.

Commercial Cleaning

Why Bother Cleaning has extensive experience of cleaning all types of commercial properties and offices from small studio offices to entire office blocks. We charge a transparent hourly rate for our cleaners meaning you get the full amount of cleaning you are paying for.

An individualised approach is adopted for each client where the most suitable cleaners are matched to each customer. Our highly trained cleaners deliver superior results every time which is why much of our new business is as a result of existing customer recommendations.

Our trusted and experienced commercial cleaners will deliver the highest professional cleaning throughout your premises. Our cleaners have an exceptional eye for detail, so not only will they achieve an aesthetically pleasing environment for your employees and visitors, but they will also sanitize all the highly used areas and touchpoints using virucidal disinfectant, giving you peace of mind that everything has been thoroughly disinfected by the time we complete each visit.

What Makes Us Different?

Why bother with Why Bother? Well obviously we think we are the best around, but here are a few reasons.

Our people - We employ cleaners on permanent contracts at above living wage rates and we never outsource to agencies. Why? Because this means our employees are fully accountable to us and 100% committed to an excellent job for our clients. We look after our staff. They look after you.

Our approach to recruitment - We carefully vet, interview and select only the best people: staff with boundless energy, an impressively positive attitude and who genuinely love to clean.

Our Local Focus - An unmanageable, remotely located franchise network is NOT for us. We are based in Brighton and Hove with local cleaning staff and we work for clients exclusively within the city. To offer you a fantastic, consistently high level of service, we aim to keep it that way.

The Next Steps

If you are interested in the services that Why Bother Cleaning offer, please don't hesitate to contact us. We can provide you with some of the finer details, and after discussing your priorities, we can provide you with a rough quote on frequency and pricing, as well as answer any questions that you may have.

Before commencing your clean, we will visit your premises to establish your exact requirements so we can tailor our commercial cleaning services to your specific needs. From this visit, we can suggest a cleaners' work routine for you, ensure all the health and safety measures are taken; and work out the weekly cost.

We have continued to provide a full cleaning service to our clients throughout the entirety of the pandemic, and now operate with further enhanced measures to keep our cleaners and clients safe.

We will share with you our full COVID-Secure risk assessment appropriate for your specific environment before your cleaning commences, as well as a list of products that you will need to keep stocked.
